

Home Care Worker Wanted

Paid, Part-Time, Eugene, Oregon

Have a Current S&DS Home Care Provider Number? Want one?

Here in southwest Eugene, on a quarter-acre of wild garden, in our little creative home, I have a great team of about six fantastic folks. They provide about 85 hours per week to help me get out of bed, do hygiene, eat, get back to bed and various activities of independent living that allow me to live in our community with my amazing wife, Debra.

As a quadriplegic+, I use a powerchair, and have a few other challenges such as a disabled voice. After more than 40 years as an activist, I am passionate about social & environmental change.

A priority is a homecare worker with an active Senior & Disabled Services (S&DS) provider number. S&DS pays my workers' wages, health insurance and vacation through the State of Oregon. For the very motivated, here is a chance to get a number. Experience with paralysis care, such as a hooyer lift, is helpful. We aim to make this the best employment on Earth!
